

A TANGIBLE RETURN ON INVESTMENT...

"We understand that as our members face the toughest ever economic climate, we must work to achieve a return on investment value many times that of the annual joining fee. Current research suggests a return in excess of £40,000, more than 8 times the annual investment for most members."

Chris Skeith
AEV Director

Estimated savings are based on the equivalent cost of professional consultancy, products and services at normal market prices (based on average usage), subscriptions to news media, advertising to similar sized audiences and existing member feedback

Save Time

- Have all your event industry questions answered – we'll either know the answers or someone who does!
- Get industry news delivered to your doorstep – e-newsletters, magazines, and more.
